| | pressure sores | | | | | | | | | |
| | Behavioral/Mental Health | 66.6% | | | | | | | | |
| | Children who received needed mental | | | | | | 63.09 | | | |
| | health care in the past year | | | | - | - | | | | |
| | Antidepressant medication management | | | | | | | | | |
| | (% of patients diagnosed with depression | 66.8% | | | | | | | | |
| | who filled a prescription for at least a 3- | | | | | | 63.1 | | | |
| | month supply of their medication) | | | | | | | | | |
| | month supply of their medication) | | | | | | | | | |

| EPPM Goal Recommendations for New Areas of Consideration for the QCC | | | | | | | | | | |
|--|---|------|------|------|------|------|-----------------------|--|--|--|
| Goal | Measure Recommendation | 2008 | 2009 | 2010 | 2011 | 2012 | National Benchmark | | | |
| 4. Develop and provide useful measurements of health care quality in areas of health care for which current data are inadequate. | Care Transitions Follow-up after hospitalization for mental illness MA skilled nursing facilities participating in the Advancing Excellence Program who use the "Advance Care Planning Module" | | | | | | | | | |
| 5. Eliminate racial and ethnic disparities in health and in access to and utilization of health care; health indicators will be consistent, and consistently improving, across all racial and ethnic groups. | Consider analyzing goals by income/SES as well as race/ethnicity | | | | | | | | | |
| 6. Promote quality improvement through transparency. | Patients who access medical records through an online portal | | | | | | | | | |
